INCOME DETERMINATION

The gross income of a Borrower (or Borrowers) (as defined by Revenue Ruling 86-124) promulgated by the Internal Revenue Service is the Borrower's annualized gross income. Annualized gross income is gross monthly income multiplied by 12. Gross monthly income is the sum of monthly gross pay: any additional income from overtime, part-time employment, bonuses, dividends, interest, royalties, pensions, Veterans Administration (VA) compensation, net rental income, etc.: and other income (such as alimony, child support, public assistance, sick pay, social security benefits, unemployment compensation, income received from trusts, and income received from business activities or investments). Information with respect to gross monthly income may be obtained from available loan documents executed during the 4-month period ending on the date of the closing of the mortgage, provided that any gross monthly income not included on the loan documents must be included in determining gross monthly income. The income to be taken into account in determining gross income is income of the Borrower (or Borrowers) and any other person over 18 years of age who is expected to live in the residence being financed. Income includes the income of both spouses.
