## Citywide Affordable Housing Loan Committee

San Francisco Mayor's Office of Housing and Community Development
Department of Homelessness and Supportive Housing
Office of Community Investment and Infrastructure
Controller's Office of Public Finance

## MEMORANDUM

DATE: JANUARY 29, 2021
TO: CITYWIDE AFFORDABLE HOUSING LOAN COMMITTEE
FROM: ANNE ROMERO, SENIOR PROJECT MANAGER

## RE: $\quad 78$ HAIGHT STREET - AMENDED PRELIMINARY GAP REQUEST FOR CALIFORNIA DEBT LIMIT ALLOCATION (CDLAC) APPLICATION FINANCING PURPOSES

## THIS REQUEST

| $4,000,000$ | 2019 GO Bond |
| ---: | :--- |
| $10,500,000$ | Market Octavia Fund |
| $4,000,000$ | AHF Inclusionary |
| $4,780,239$ | No Place Like Home |
| $\underline{865,978}$ | Jobs Housing Linkage - portion of AHP Bridge |

## EXISTING PREDEVELOPMENT LOAN

| $2,000,000$ | ERAF |
| ---: | :--- |
| $\underline{600,250}$ | Affordable Housing Fund |

## TOTAL CDLAC COMMITMENT LETTER REQUEST: \$26,746,467

## Summary of Request

On behalf of Octavia RSU Associates, LP, Tenderloin Neighborhood Development Corporation (TNDC) requests an updated preliminary MOHCD gap commitment of up to \$26,746,467 to support the 78 Haight Street application to the California Debt Limit Allocation Committee (CDLAC) and California Tax Credit Allocation Committee (TCAC) for allocations of tax exempt bonds and tax credits respectively, due February 4, 2021, for an anticipated April 2021
allocation meeting. This request includes an AHP bridge loan in the amount of $\$ 945,000$, which would be repaid upon award and receipt.

TNDC received a MOHCD preliminary gap commitment for their successful CA Department of Housing and Community Development Multifamily Housing Program application on February 21,2020 in the amount of $\$ 22,289,234$. However, an increase in MOHCD funding is needed to replace the previously anticipated state tax credit source with increased MOHCD funds if they are to be competitive under the new CDLAC scoring criteria. This preliminary gap request to MOHCD is made up of $\$ 21.966$ million in MOHCD funds ( $\$ 424 \mathrm{~K} /$ unit) and an additional $\$ 4.78$ million in No Place Like Home (NPLH) funds for 13 NPLH TAY units targeted to TAY with serious mental illness (\$368K / NPLH unit). Total proposed MOHCD financing, including NPLH, is $\$ 26,746,467$ ( $\$ 424 \mathrm{~K} /$ unit). This amount also includes a bridge loan to cover their presumed FHLB Affordable Housing Program (AHP) award in the amount of $\$ 945,000$, as they plan to apply in Spring 2021.

Loan Committee approved a predevelopment loan in the amount of $\$ 2,600,250$ in September 2019, and the project was awarded MHP in January 2021 in response to their second MHP application. This memo updates Loan Committee on the financing plan, project status and the preliminary proposed total budget. A full gap loan evaluation and updated budget will be presented to Loan Committee in Fall 2021 for review and approval prior to construction start based on hard cost bid numbers.

## Background

78 Haight Street will provide 63 units of affordable housing, including 32 units for Transition Age Youth (TAY) experiencing or at risk of homelessness. TNDC was awarded funding under their response to the Octavia Boulevard Parcels RS\&U Request for Proposals that was issued on June 19, 2017. Shortly after the award, the project was put on hold due to budget constraints resulting from delays to a market rate development with an inclusionary housing contribution to the project. In March 2019, predevelopment financing was made available to restart this project from the ERAF (Educational Revenue Augmentation Fund) surplus. Adjacent Parcels R\&S have very high cost-per-unit numbers due to the small lot sizes which necessitate greater structural reinforcement; these are being explored as separate developments in collaboration with the Office of Economic and Workforce Development (OEWD). In September 2019, Loan
Committee approved $\$ 2,600,250$ in predevelopment financing for 78 Haight Street (Parcel U) as a stand-alone project.

## Update on Project Status

## 1. Financing Plan

Financing Status and Current Challenge
TNDC was awarded a $\$ 5,618,262$ MHP loan from HCD in January 2021. With this funding secured, TNDC will now apply in the next round for the two final remaining components of the capital stack: allocations of both tax exempt bonds and $4 \%$ tax credits.

This will be the second round in recent history whereby those allocations will be competitive, under a new set of guidelines applicable as of January 2021. In addition, CDLAC has changed the tiebreaker scoring to advantage projects which do not include state tax credits. Because the changes to the CDLAC scoring were published well after the MHP application was due, TNDC could not have applied for a larger MHP loan that is required if the state tax credits are removed from the budget. Now that MHP has been awarded, the MHP loan amount and project AMI levels are, for the most part, locked in place.

In addition, the two other means available to improve the CDLAC tiebreaker score are not available to 78 Haight:

- The project is not in a High or Highest Resource Area
- The project cannot fit into the TCAC Special Needs Housing Type due to average project affordability; doing so now would change the MHP tiebreaker and would cost the project its MHP award.

As a result, without removing the state tax credits, the project is not expected to be awarded bonds in this round given the effect that the presence of state tax credits has on the tiebreaker score. The financial consultant, CHPC, speculates that subsequent 2021 rounds will be equally competitive given the shortage of bonds relative to the number of projects applying.

## Potential Solution

The tiebreaker score can become more competitive by increasing the MOHCD gap funding in an amount sufficient to remove the state tax credits from the budget:

| Option | Tiebreaker (lower is better) |
| :--- | :--- |
| With state tax credits (as-is) | $\$ 373,439.89$ |
| MOHCD gap in lieu of state tax credits (this <br> request) | $\$ 321,649.33$ |

Because this is the very first round whereby the new CDLAC tiebreaker score will be used, it is not possible to predict whether or not the improved tiebreaker will be successful. However, staff recommend that MOHCD support the project with additional gap funds to improve the likelihood of an allocation and mitigate possible further schedule delays.

## Entitlements

TNDC is has obtained full entitlements via SB35 \& State Density Bonus application.

## 2. Design and Target Population

The project is located at the corner of Haight Street and Octavia Street, in the Hayes Valley neighborhood, on an extremely small parcel the size of 5,580 s.f.. The building is proposed as Type I with 7 stories over a full basement (see note on basement, below). The design proposes childcare fronting Octavia Street utilizing 3,350 square feet. The residential project would have a community room and kitchen at the roof deck level on the $8^{\text {th }}$ floor. The project will consist of 63 units, including 58 studios and 5 one-bedroom apartments. Just over half of the units (32)
will house TAY, and the other half will house low-income tenants with incomes up to $80 \%$ MOHCD AMI. The one-bedroom units will be provided for TAY parenting households.

The building design includes a "TAY Suite" on the second floor, which includes two offices for on-site social services, a staff restroom, and a tenant lounge for use by the TAY residents. Support services will be provided by Larkin Street Youth Services. HSH and the service provider, Larkin Street Youth Services, have reviewed and provided input on design of the service provision space for the TAY residents and believe that it is appropriate to serve the needs of TAY, including the NPLH population, given the supportive services plan. Additional amenities include a community room, laundry room, 24-7 front desk coverage, on-site property management and social worker, a rooftop patio and on-site laundry.

Target Population and Unit Type. TNDC proposes including No Place Like Home (NPLH) funds from the City's Alternative County NPLH allocation for 13 TAY units, which will require that those units serve TAY who are homeless or at risk of homelessness and have a serious mental illness. The NPLH program requires an experienced service provider for the target population, site suitability, and integration of the units within the building. MOHCD, HSH and DPH are working closely to coordinate the inclusion of NPLH units across the supportive housing portfolio. The location of this project, experienced TAY service provider, and collaborative history of TNDC and Larkin Street at TAY supportive housing projects make this project a good candidate for TAY NPLH units. The remaining 19 TAY units are proposed to be funded by MHP - Supportive Housing, which has a specific TAY chronic homeless population definition that HSH has reviewed and believes the TAY residents will meet given the characteristics of the population in the TAY Coordinated Entry System.

The proposed unit mix is 58 studios and $51-\mathrm{BR}$ units, with all 1-BR units targeted to parenting TAY. All TAY units will receive referrals through the Coordinated Entry System, including referrals for the NPLH tenants and parenting TAY.

| Unit Type | Unit <br> Count | SF <br> Average | Max Gross <br> Rent | Maximum \% <br> MOHCD <br> AMI | Rent, Operating <br> Subsidy |
| :--- | ---: | ---: | ---: | ---: | :--- |
| Studio - MHP | 14 | 375 | $\$ 846$ | $30 \%$ | LOSP |
| Studio - NPLH | 13 | 375 | $\$ 846$ | $30 \%$ | LOSP |
| Studio | 31 | 375 | $\$ 1,832$ | $80 \%$ | None |
| Total Studios | $\mathbf{5 8}$ |  |  |  |  |
| 1 BR - MHP | 3 | 500 | $\$ 967$ | $30 \%$ | LOSP |
| 1 BR - Neither | 2 | 500 | $\$ 967$ | $30 \%$ | LOSP |
| MHP nor NPLH | $\mathbf{5}$ |  |  |  |  |
| Total 1 BRs | $\mathbf{6 3}$ |  |  |  |  |
| TOTAL: |  |  |  |  |  |

*Two 1-BR units were removed from NPLH funding after the previous loan committee approval to comply with HCD MHP and NPLH regulations to have no more than $49 \%$ restricted to persons with a disability.

Square Footage Summary.

| Residential SF: | 23,839 |

| Roof Deck SF: | 2,574 |
| TOTAL SQUARE FOOTAGE: | 47,676 |

## 3. Ground Floor Uses

The Octavia Boulevard Parcels RS\&U RFP was amended after it was issued to add the provision of a childcare facility on the ground floor within the three parcels, given the need for childcare in San Francisco, severe need in this neighborhood, the potential availability of childcare tenant improvement funding from Market-Octavia Child Care impact fees, and the potential need for childcare by parenting TAY. In addition, a Planning Code amendment was pending approval at the Board of Supervisors that would allow the sharing of open space between the housing and childcare, which this project ultimately can't accommodate due to space constraints. Due to the very small parcel size with only Parcel U going forward at this time, Loan Committee conditioned that additional feasibility analysis needed to be done to determine if childcare could work at this site.

Since the Loan Committee award of predevelopment funds, TNDC has done significant due diligence to determine the feasibility of a childcare center on the ground floor, as it is a high priority for childcare advocates, and neighborhood groups. The major feasibility hurdles were the following:
a) Facility Size. LIIF childcare experts evaluated that an approximate 3,500 -square-foot CDC serving 35 children ages 0 to 5 would be acceptable to childcare providers.
b) Open Space Waiver. Obtaining approvals for the Provider to use either/both the Hayes Valley Playground and/or the nearby Koshland Playground has been deemed likely by both LIIF and SF Rec \& Park. The selected Provider will be responsible for obtaining the waivers.

The childcare entrance will be on Octavia, and the childcare operations will not interact with the residential building and entrance on Haight Street. A draft of the Childcare Development Center ("CDC") RFP was reviewed by MOHCD and LIIF and a final version was published on February 10, 2020, with responses due on March 2, 2020. Wu Yee Children's Services was awarded the CDC space. The rent assumption is $\$ 1 /$ year, consistent with other recently approved childcare centers that provide $95 \%$ or greater subsidized childcare slots.

## 4. Community Outreach and Site Interim Use

TNDC has met one-on-one with leadership from the Hayes Valley Neighborhood Association (HVNA) and has also met twice with the HVNA Transportation and Planning Committee. HVNA continues to be generally supportive and welcoming of the project.

HVNA would like to see interim use activation continued at the site prior to start of construction. This is being accomplished at $R \& S$ through a neighborhood garden. At Parcel U, the site is paved and is currently being used with the City's permission for church parking and staging for construction at Parcel T. All revenue from Market Octavia Plan parcels’ interim uses goes to Public Works for Market Octavia Plan projects.

Prop I Notification has occurred.

## 5. Procurement

Since the Predevelopment loan approval, the following team members have been procured.
a. CM
Chris Rivera
b. General Contractor
Suffolk Guzman Joint venture

## 6. Construction Specialist's Evaluation

The preliminary budget is based on an October 2020 GC cost estimate based on $60 \%$ Construction Drawings (CD).

The current 60\% CD set produced by Paulett Taggart Architects for 78 Haight Street presents a 7 story, 63-unit, mid-rise development comprised of 58 studios and 5 one-bedroom units with ground floor commercial space which totals approximately 47,676 gross square feet. The planned building will be at the corner of Haight Street and Octavia Boulevard in Supervisorial District 5. The main building access is located at the lobby entrance off of Haight Street. The first floor currently consists of a residential lobby and childcare center. The second floor includes services office, community room, and residential units. Floors 3-7 contain residential units while the roof has another community room, laundry room, and roof deck which provides open space.

The tight site ( $5,580 \mathrm{sf}$ ) remains a challenge in the context of scaling the costs for the project. Since we last came before the committee, TNDC has selected a joint venture between Suffolk and Guzman Contractors as the GC and a recent Schematic Design estimate has been delivered, discussed with the design and development team, and is reflected in the project proforma for this evaluation. The current cost estimate assumes the mat slab foundation presented in the design documents as well as a basement which will be utilized for back of house functions for the building. Exterior finishes are a mix of stucco and panelized products which offer differentiation to complement the varied articulated bay windows. Planned unit finishes include resilient flooring, engineered quartz countertops, and appliances.

The current hard cost estimated for the project totals $\$ 34,400,855$, which translates to $\$ 565,915$ per unit or $\$ 747$ per square foot. The current set of numbers based on the $60 \%$ CD estimate also contain the full suite of MOHCD contingencies within the unit construction rehab line. A
condition of this memo will be that TNDC breaks out these contingencies across the MOHCD proforma and enters into immediate discussions with MOHCD Construction Representative regarding appropriate and commensurate reductions based on the current stage of design and permit review/plan check comments and outstanding predevelopment risk exposure. The construction period is currently estimated at 17 months and the project is in possession of the Site Permit. The first permit addendum (structural) is currently under review and waiting for Department of Public Works approval.

The team has accepted approximately $\$ 435,873$ in value engineering to date with more forthcoming additional changes which will be incorporated into the $90 \%$ CD set.

## 7. Updated Sources and Uses Summary Sources and Uses Narrative

| Predevelopment | Amount |  | Terms |  | 0\% | Status |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| MOHCD - ERAF and AHP | \$ | 2,600,250 |  |  |  |  |
| Perm Sources |  |  |  |  |  |  |
| MOHCD | \$ | 17,508,995 |  |  |  | proved gap |
| MOHCD NPLH | \$ | 4,780,239 |  |  |  |  |
| AHP (MOHCD Bridge Loan) | \$ | 945,000 |  |  |  |  |
| MHP | \$ | 5,618,262 |  |  |  |  |
| General Partner (Dev Fee) | \$ | 2,200,000 |  |  |  |  |
| Tax Credit Equity | \$ | 16,917,640 |  |  |  | d <br> AL*** gap <br> ieu of State |
| Increase to MOHCD Gap | \$ | 3,512,233 |  |  |  |  |
| Deferred Fee | \$ | 0 |  |  |  |  |
| TOTAL | \$ | 51,482,333 |  |  |  |  |
| USES |  |  | Per |  |  |  |
| Acquisition | \$ | 37,439 | \$ | 594 | \$ | 1 |
| Hard Costs | \$ | 36,652,666 | \$ | 565,915 | \$ | 748 |
| Hard Cost Contingency \& Escal. |  | d above. See |  |  |  |  |
| Soft Costs | \$ | 11,392,228 | \$ | 180,829 | \$ | 239 |
| Developer Fee | \$ | 4,400,000 | \$ | 69,841 | \$ | 92 |
| TOTAL | \$ | 51,482,333 | \$ | 817,180 | \$ | 1,080 |

$>$ Note: Given the urgent nature of this request:

- Only tab 4b Permanent Sources \& Uses was updated. Other tabs reflect the MOHCD application that was previously approved by MOHCD loan committee.
- The perm S\&U tab does not comply with MOHCD policy with regards to contingencies. This is because, per Financial Consultant CHPC, TNDC should
not show bid/escalation/plan check contingencies in the TCAC app. Therefore, these amounts have been incorporated into the hard cost line items.
$>$ Permanent Sources Evaluation Narrative: Proposed permanent financing sources include tax-exempt bonds and 4\% Low Income Housing Tax Credits, MHP, General Partner equity, Federal Home Loan Bank Affordable Housing Program funds, and MOHCD permanent financing in the amount of $\$ 26,746,467$ (including NPLH and AHP bridge loan). This total MOHCD contribution of $\$ 424,547$ / unit is higher than estimated at the Predevelopment stage, yet represents a different financing scenario and no state tax credits. Once the AHP bridge loan is repaid, total MOHCD financing would be $\$ 25.8$ million, or $\$ 409 \mathrm{~K}$ / unit.
$>$ The tax credit pricing is assumed at $\$ 0.93$ for the federal credit. This represents a reduction from $\$ 1.01$ from the project's previously approved loan evaluation due to weakening in the tax credit market generally post-COVID 19.
$>$ AHP assumes a request of $\$ 15,000$ per unit for a total of $\$ 945,000$; the sponsor has done a scoring analysis and doesn't think they'll be competitive with readiness points until 2021; therefore TNDC requests that MOHCD provide a bridge loan at closing that will be repaid upon funding of AHP.

| Development Budget |  |  |
| :---: | :---: | :---: |
| Underwriting Standard | Meets <br> Standard? <br> (Y/N) | Notes |
| Hard Cost per unit are within standards | Y | See note above - hard costs are inflated per TCAC <br> application requirements. |
| Hard Cost Contingencies | Y | See note above - hard cost contingencies have been <br> incorporated into hard cost line items per TCAC <br> requirements. |
| Architecture and Engineering Fees are <br> within standards | Y |  |
| Construction Management Fees are within <br> standards | Y | Proposed total Construction Management Fee of <br> \$118,388 is within MOHCD Underwriting Guidelines <br> for predev and construction period |
| Developer Fee is within standards, see also <br> disbursement chart below | Y | Total Dev Fee is proposed at \$4.4 million with \$2.2 <br> million contributed back as a GP Contribution Source. <br> Total At-Risk Dev Fee is \$1.2 million |

| Soft Cost Contingency is $10 \%$ per standards | N | Soft Cost Contingency is less than $10 \%$ and will be <br> adjusted at final loan committee approval prior to <br> close. |
| :---: | :---: | :---: |
| Capitalized Operating Reserves are a <br> minimum of 3 months | Y | Capitalized Operating Reserve is equal to 3 months of <br> operations |
| Capitalized Replacement Reserves are a <br> minimum of \$1,000 per unit (Rehab only) | N/A |  |
| Commercial start up costs | N | Childcare tenant will need to fund all tenant <br> improvements and start-up costs, as made explicit in <br> the RFP. |

| At Risk: Perm Loan Closing | $50 \%$ | $\$ 550,000$ |
| At Risk: Project Closeout | $30 \%$ | $\$ 330,000$ |
| Total At Risk Fee |  | $\$ 1,100,000$ |
| GP Equity |  | $\$ 2,200,000$ |
| Total Developer Fee | $100 \%$ |  |

## 8. Operating Budget

There are no changes to the Operating Budget since the previous gap loan request.

The total operating budget is $\$ \underline{959,154}$ ( $\$ 15,225$ PUPA), assuming opening in 2022. Operating Cost increases from the original predevelopment request are in the areas of:

- Asset Management Fee is now reflected above the line
- Increased utilities
- Increased insurance
- Increased payroll and contracts
- Increased services for the non TAY units in the operating budget

While the operating costs appear high on a per unit basis, the costs are mostly attributable to 32 PSH units with full time desk clerk coverage within a small 63 unit building. The operating budget will be more fully evaluated at the gap request, including the need for 24 hour desk clerk coverage.

The staffing plan is lean (see table, below) and it will be revisited at final gap commitment.

| Type | FTE's | Budget | Notes |
| :---: | :---: | :---: | :---: |
| General Manager | 1 | 58,000 | 1 General Manager |
| Assistant Manager Salaries | 0 | 0 | No Assistant Manager |
| Desk Clerk Salaries |  |  | 4.2 FTE Desk Clerks at 2020 min wage, plus requisite |
| (TNDC Employees) | 4.2 | 168,880 | overtime and meal-break coverage |
| Rent Allowance | 0.0 | 0 | No MGR Unit |
| Night Manager Salary | 0.0 | 0 | None |
| Janitor \& Cleaning Payroll | 1.0 | 38,400 | 1 FTE Custodians at 2020 salaries (min wage) + requisite $\$ 2 \mathrm{k}$ for OT |
| Maintenance Payroll | 1.5 | 75,920 | 1 FTE Maint III and 0.5 Maint I at 2020 salaries. |

The project cashflows with the 30\% LOSP and 80\% MOHCD AMI units through Year 20. LOSP costs are currently budgeted at $\$ 14,350$ per unit per year.

## 9. Services Budget

The Support Services Plan was drafted for the MHP application and has been shared with HSH. Larkin Street Youth Services has extensive experience providing services to TAY, including TAY with serious mental illness, with their MHSA TAY portfolio and programs. Larkin Street Youth Services' services contract will be funded by HSH. TNDC Tenant Services will provide support to the other households (adults or small families) with a part time service provider position paid from operations. TNDC and Larkin Street have a long collaboration in TAY housing including 864 Ellis ( 24 units, the very first affordable TAY project funded by the City) and Aarti ( 40 units). Completion of the services plan and budget is listed as a condition of ongoing disbursements during predevelopment.

Note that both MHP and NPLH have minimum requirements for services case management ratios and reporting. Need to make sure these are accounted for.

## 10. Status of Predevelopment Loan Conditions

By December 1, 2019:
a) Begin community outreach in earnest. DONE
b) Determine feasibility of childcare center at ground floor. DONE
c) Submit application to Planning Department for SB35 and Site Permit review. DONE
d) Submittal of preliminary services plan and budget for HSH and MOHCD Review and Approval. DONE
e) TNDC will explore cost containment strategies for construction and present them at the various cost estimates (schematic, design development, construction) with narrative analysis of the pricing from the general contractor. IN PROCESS

By March 1, 2020 (Prior to Design Development Phase):
f) Operating Budget Update. TNDC will refine the proposed operating budget and staffing plan, which informs the LOSP cost, to be reviewed by MOHCD and HSH. TNDC will consider the need for an assistant property manager. DONE
g) TNDC to analyze a higher AHP request amount to maximize FHLB source of funds. DONE

Former Conditions of Approval:
h) TNDC to implement cost containment strategies that limit the MOHCD subsidy to under $\$ 250 \mathrm{~K}$ per unit and limits the total development costs excluding land to under $\$ 675 \mathrm{~K}$ per unit. IN PROCESS. TNDC has pursued cost containment strategies as outlined in Section 7. The financing structure has changed, and staff believe that this high cost is the result of the extremely small site and Type I construction. ONGOING
i) TNDC to submit Request For Proposals (RFPs) for equity investors to MOHCD for review before they are finalized and released to investors. TO OCCUR
i) TNDC to submit raw financial data from developer or financial consultant to MOHCD prior to selection of equity investor. TO OCCUR
11. Staff Recommendation

1. Staff recommends approval of the commitment letter to CDLAC for the Sponsor's application with the increased MOHCD gap amount to replace the state tax credits.

## 12. New Loan Conditions

a. Sponsor to break out the hard cost contingencies across the MOHCD proforma and discuss with the MOHCD Construction Representative the appropriate and commensurate reductions based on the current stage of design and permit review/plan check comments and outstanding predevelopment risk exposure, as well as continue hard cost reduction efforts and value engineering as design progresses.
b. Continue satisfaction of the loan conditions marked "IN PROCESS."
c. Explore options to reduce the operating costs, including an evaluation of the need for 24 hour desk clerk coverage.
d. Sponsor will provide initial draft marketing plan within 12 months of anticipated TCO, outlining the affirmative steps TNDC will take to market the project to the City's preference program participants, including COP Holders, Displaced Tenants, and Neighborhood Residents, as well as how the marketing is consistent with the Mayor's Racial Equity statement and promotion of positive outcomes for African American San Franciscans.

## MEMORANDUM

DATE: FEBRUARY 21, 2020
TO: CITYWIDE AFFORDABLE HOUSING LOAN COMMITTEE
FROM: ANNE ROMERO, SENIOR PROJECT MANAGER

## RE: $\quad 78$ HAIGHT STREET - PRELIMINARY GAP REQUEST FOR HCD MULTIFAMILY HOUSING PROGRAM (MHP) APPLICATION PURPOSES

EXISTING MOHCD SOURCES
MOHCD PREDEV LOAN $\begin{array}{rrl}\$ 2,000,000 & \text { ERAF } \\ & \$ 600,250 & \text { AFFORDABLE HOUSING FUND }\end{array}$
\$2,600,250
PRELIMINARY GAP REQUEST
\$14,908,745 MOHCD
\$ 4,780,231 MOHCD/NPLH for 16 NPLH Units
\$19,688,984
PRELIMINARY TOTAL MOHCD FUNDING
\$22,289,234 ERAF, AHF, NPLH

## Summary of Request

On behalf of Octavia RSU Associates, LP, Tenderloin Neighborhood Development Corporation (TNDC) requests a preliminary MOHCD gap commitment of up to $\$ 19,688,984$ to support the 78 Haight Street (formerly known as Parcel U) application for the California Department of Housing and Community Development (HCD) Multifamily Housing Program (MHP) financing to leverage $\$ 5.4$ million for the proposed 63 unit TAY / adult housing development. The preliminary gap request to MOHCD is for a total City contribution up to $\$ 22,289,234$, made up of $\$ 17.5$ million in MOHCD funds ( $\$ 278 \mathrm{~K} /$ units) and $\$ 4.8$ million in No Place Like Home funds for 15 NPLH TAY units targeted to TAY with serious mental illness (\$318K / NPLH unit). TNDC also requests a commitment of a bridge loan to cover the AHP amount for the MHP application, as they will apply next year for MHP when the project is more competitive. Loan Committee approved a predevelopment loan in the amount of $\$ 2,600,250$ in September 2019, and that Loan Committee evaluation is attached for your reference. This memo updates Loan Committee on the financing plan, project status and the preliminary proposed total budget. A full gap loan evaluation and updated budget will be presented to Loan Committee for review
and approval prior to construction start based on hard cost bid numbers, and the team is undertaking cost containment measures to bring down the gap cost.

## Background

78 Haight Street will provide 63 units of affordable housing, including 32 units for Transition Age Youth (TAY) experiencing or at risk of homelessness. TNDC was awarded funding under their response to the Octavia Boulevard Parcels RS\&U Request for Proposals that was issued on June 19, 2017. Shortly after the award, the project was put on hold due to budget constraints resulting from a market rate development with an inclusionary housing contribution to the project that stalled. In March 2019, predevelopment financing was made available to restart this project from the ERAF (Educational Revenue Augmentation Fund) surplus. Adjacent Parcels R\&S have very high cost-per-unit numbers due to the small lot sizes which necessitate greater structural reinforcement so they are being explored as separate developments in collaboration with OEWD. In September 2019, Loan Committee approved $\$ 2,600,250$ in predevelopment financing for Parcel U as a stand-alone project with several conditions. With this preliminary gap commitment, the sponsor will be in a good position to apply for the project's other financing.

## Update on Project Status

## 1. Financing Plan

TNDC had planned to pursue a $9 \%$ tax credit allocation under the Special Needs set-aside, with the application due March 9, 2020. Due to the deep income targeting required to satisfy the $9 \%$ Special Needs set-aside requirements, where maximum average affordability across the entire project cannot exceed $40 \%$ TCAC AM1, the project did not generate positive cashflow. A supplemental operating reserve would need to be capitalized to offset annual net negative cashflow, which would increase the gap from MOHCD.

Switching to a 4\% / MHP / bond deal is financially feasible with a higher MOHCD subsidy (not counting the capitalized operating reserve) and still uses an income averaging approach. Under this scenario, the project will have positive cashflow with half supportive housing TAY units restricted to $30 \%$ MOHCD AMI supported by LOSP, and the other half of units targeted at $80 \%$ MOHCD AMI. The deeper income restrictions on the TAY units than the NPLH requirement of $30 \%$ TCAC are proposed to increase the MHP tie breaker score which is based on the affordability of units under $60 \%$ TCAC AMI. TNDC requests flexibility at the final gup request, if needed, on the OCII / MOHCD policy on income averaging, if those units need to go up to $85 \%$ MOHCD AMI for the project to cashflow. As shown in the budget, the project has positive cashflow for 20 years with the units restricted to $80 \%$ MOHCD AMI which conforms to the MOHCD / OCIl income averaging policy, and the average MOHCD AMI is $57 \%$. The non-LOSP units at $80 \%$ MOHCD AMI do not generate sufficient cashflow to leverage debt.

The project is maxing out on the CDLAC bond limits, and it may be challenging to meet the $50 \%$ test. TNDC proposes to address this by possibly recording an air rights subdivision prior to close to remove the commercial parcel from depreciable basis. This will solve the $50 \%$ test problem but not reduce investor equity (because it's removed from depreciable basis but not tax
credit basis). If BSM is slow to record the subdivision, TNDC could record it post close and do a sale of the parcel to the other entity, which is more complex. The best approach will be determined as the costs are finalized.

The land is owned by the City, and the project will be subject to standard MOHCD ground lease, including $\$ 15,000$ annual ground lease payment.

TNDC is proposing this $4 \%$ bond / MHP structure based on overall project feasibility, and pending an award of a preliminary gap commitment from MOHCD, will submit an MHP Supportive Housing application on March 2, 2020.

## Entitlements

TNDC is on-schedule to secure entitlement approvals by March 2, 2020, which is required for competitive scoring. Working under a tight timeline, the project's SB35 \& State Density Bonus applications and site permit have been reviewed by City Planning. The SDAT (Street Design Advisory Team) met and provided initial comments on the project. A follow-up meeting with SDAT, sponsor, design team and MOHCD occurred on February 6, 2020. Planning has scheduled an interdepartmental team meeting on February 25. The Planning department stated that neither the interdepartmental team meeting nor the SDAT will hold up the entitlement process, which is anticipated to be complete by March 1, 2020.

## 2. Design and Target Population

The project is located at the corner of Haight Street and Octavia Street, in the Hayes Valley neighborhood, on an extremely small parcel the size of $5,580 \mathrm{s.f}$.. The building is proposed as Type I with 7 stories over a full basement (see note on basement, below). The design proposes childcare fronting Octavia Street utilizing 3,350 square feet. The residential project would have a community room and kitchen at the roof deck level on the $8^{\text {th }}$ floor. The project will consist of 63 units, including 58 studios and 5 one-bedroom apartments. Just over half of the units (32) will house TAY, and the other half will house low-income tenants with incomes up to $80 \%$ MOHCD AMI. The one-bedroom units will be provided for TAY parenting households.

The building design includes a "TAY Suite" on the second floor, which includes two offices for on-site social services, a staff restroom, and a tenant lounge for use by the TAY residents. Support services will be provided by Larkin Street Youth Services. HSH and the service provider, Larkin Street Youth Services, have reviewed and provided input on the service provision space for the TAY residents and believe that it is appropriate to serve the needs of TAY, including the NPLH population, given the supportive services plan. Additional amenities include a community room, laundry room, 24-7 front desk coverage, on-site property management and social worker, rooftop patio and on-site laundry.

Basement. It was determined as part of the $100 \%$ SD pricing that the cost for a full basement (vs. a partial basement) was just under $\$ 100,000$ in basis-eligible project costs, and the marginal cost increase provided significant space expansion. The added cost of greater soil excavation was nearly offset by savings found in the shoring and underpinning line items. The full basement greatly facilitates the long-term operation of the building (previously the site was absent
adequate space for electrical, maintenance and storage) and has been incorporated into the project.

Target Population and Unit Type. TNDC proposes including No Place Like Home (NPLH) funds from the City's Alternative County NPLH allocation for 15 TAY units, which will require that those units serve TAY who are homeless or at risk of homelessness and have a serious mental illness. The NPLH program requires an experienced service provider for the target population, site suitability, and integration of the units within the building. MOHCD, HSH and DPH are working closely to coordinate the inclusion of NPLH units across the supportive housing portfolio, and there is a desire for NPLH units for TAY to be included in the NPLH portfolio; the location of this project, experienced TAY service provider, and collaboration history of TNDC and Larkin Street at TAY supportive housing projects make this project a good candidate for TAY NPLH units. The remaining 17 TAY units are proposed to be funded by MHP - Supportive Housing, which has a specific TAY chronic homeless population definition that HSH has reviewed and believes will work given the characteristics of the population in the TAY Coordinated Entry System.

The proposed unit mix is 58 studios and $51-B R$ units, with all $1-B R$ units targeted to parenting TAY. The high percentage of studios were designed to maximize density and meet the programmatic requirements of the $9 \%$ tax credit special needs set-aside that was originally pursued. All TAY units will receive referrals through the Coordinated Entry System, including referrals for the NPLH tenants and parenting TAY.

## 3. Ground Floor Uses

The Octavia Boulevard Parcels RS\&U RFP was amended after it was issued to add the provision of a childcare facility on the ground floor within the three parcels, given the need for childcare in San Francisco across the City, severe need in this neighborhood, the potential availability of childcare tenant improvement funding from Market-Octavia Child Care impact fees, and the potential need for childcare by parenting TAY. In addition, a Planning Code amendment was pending approval at the Board of Supervisors that would allow the sharing of open space between the housing and childcare, which this project ultimately can't accommodate. Due to the very small parcel size with only Parcel U going forward at this time, Loan Committee conditioned that additional feasibility analysis needed to be done to determine if childcare could work at this site.

Since the Loan Committee award of predevelopment funds, TNDC has done significant due diligence to determine the feasibility of a childcare center on the ground floor, as it is a high priority for childcare advocates, neighborhood groups, and could leverage the Market-Octavia Child Care impact fees. The major feasibility hurdles were the following:
a) Facility Size. LIIF childcare experts evaluated that an approximate 3,500 -square-foot CDC serving 35 children ages 0 to 5 would be acceptable to childcare providers.
b) Open Space Waiver. Obtaining approvals for the Provider to use either/both the Hayes Valley Playground and/or the nearby Koshland Playground has been deemed likely by both LIIF and SF Rec \& Park. The selected Provider will be responsible for obtaining the waivers.

The childcare entrance will be on Octavia, and the childcare operations will not interact with the residential building and entrance on Haight Street. A draft of the Childcare Development Center ("CDC") RFP was reviewed by MOHCD and LIIF and a final version was published on February 10, 2020, with responses due on March 2, 2020. One childcare provider has expressed strong interest in submitting a proposal. The rent assumption is $\$ 1 /$ year, consistent with other recently approved childcare centers that provide $95 \%$ or great subsidized childcare slots. The goal is to select the childcare provider by March 2, 2020, as early design coordination is critical. In the event that viable proposals aren't received, indicating that there are feasibility issues with this space, TNDC would quickly pivot to explore other uses that wouldn't require major design modification. Possibilities include a senior center, café, or other community serving nonprofit use such as Blue Bear, 826 Valencia or Creativity Explored.

## 4. Community Outreach

TNDC has met one-on-one with leadership from the Hayes Valley Neighborhood Association (HVNA) and has also met twice with the HVNA Transportation and Planning Committee. HVNA continues to be generally supportive and welcoming of the project. In discussions with TNDC, HVNA has indicated acceptance of the height at 78 Haight though concerns remain regarding the height of the buildings parcels at $R$ and $S$.

HVNA retains its preference for neighborhood-serving retail (as opposed to destination retail) at parcels R\&S, but has approved the childcare center at the retail level at 78 Haight. They are focused on "streetscape activation" at 78 Haight, and prefer more bike parking. HVNA prefers zero parking on site which this project will meet.

HVNA would like to see interim use activation continued at the site prior to start of construction. This is being accomplished at R\&S through a neighborhood garden. At Parcel U, the site is paved and is currently being used with the City's permission for church parking and staging for construction at Parcel T. All revenue from Market Octavia Plan parcels' interim uses goes to Public Works for Market Octavia Plan projects.

Prop I Notification has occurred.

## 5. Procurement

Since the Predevelopment loan approval, the following team members have been procured.
a. CM
b. General Contractor
c. Investor and Construction Lender
Chris Rivera
Suffolk Guzman Joint venture
TBD

## 6. Construction Specialist's Evaluation

The preliminary budget is based on a December $12,2019 \mathrm{GC}$ cost estimate, and reflects a $2.6 \%$ decrease in hard cost from the predevelopment budget.

The Schematic Design set produced by Paulette Taggart Architects for 78 Haight Street presents a 7 story, 63 unit, mid-rise development comprised of 58 studios and 5 one-bedroom units with ground floor commercial space which total approximately 47,676 gross square feet. The planned building will be at the corner of Haight Street and Octavia Boulevard in Supervisorial District 5. The main building access is located at the lobby entrance off of Haight Street. The first floor currently consists of a residential lobby and childcare center. The second floor includes services office, community room, and residential units. Floors 3-7 contain residential units while the roof has another community room, laundry room, and roof deck which provides open space.

The tight site ( $5,580 \mathrm{sf}$ ) remains a challenge in the context of scaling the costs for the project. Since we last came before the committee, TNDC has selected a joint venture between Suffolk and Guzman Contractors as the GC and a recent Schematic Design estimate has been delivered, discussed with the design and development team, and is reflected in the project proforma for this evaluation. The current cost estimate assumes the mat slab foundation presented in the design documents as well as basement which will be utilized for back of house functions for the building. Exterior finishes are a mix of stucco and panelized products which offer differentiation
to compliment the varied articulated bay windows. Planned unit finishes include resilient flooring, engineered quartz countertops, and appliances.

The current hard cost estimated for the project totals $\$ 34,400,855$, which translates to $\$ 546,045$ per unit or $\$ 722$ per square foot. This hard cost estimate includes $3.5 \%$ escalation until the planned start of construction in December 2020. The new set of numbers also shows the underwriting maximum for all contingencies whereas the predevelopment number listed lower amounts, some of which will be reduced as the project's desigh further advances and design and bid risks are reduced. The construction period is currently estimated at 17 months. The per-unit hard cost is slightly below the current average for MOHCD projects in predevelopment. The ability to utilize so many studio configurations helps scale the per unit measurement effectively. The per square foot hard cost is higher than the average for the MOHCD projects in predevelopment but does represent a reduction since the prior evaluation.

While the design is in its early stages, the GC has provided a suggested value engineering list totaling $\$ 1,875,103$ in items still to be determined for acceptance.

A loan condition from the Predevelopment Loan approval was for the sponsor to consider cost containment strategies, including the possibility of moving away from a Type I building for cost efficiencies. Below is the sponsor's conclusions on that exercise.

- Prior to Loan Committee for the predevelopment loan, SFFD had determined that the height of the building must be measured by the lowest point on the property (the NE corner).
- This determination was counter to previous experience, where the building height would be measured by the mid-point of the building.
- It was necessary in response to this determination to change the construction type of the building from 5 stories of wood over 2 stories of concrete (excluding basement) to $100 \%$ concrete.
- This was necessary to maintain the same unit count as before despite the reduction in total building height that the SFFD determination caused.
- During Loan Committee for the predevelopment loan, in response to a query from the Director of MOHCD, the Sponsor offered to reyisit the height determination with SFFD with MOHCD's support, with a goal of convincing SFFD to reverse their decision. Reversing the decision would then allow the Sponsor to return the construction type to the less-expensive, original wood-over-concrete.
- The Sponsor then met with SFFD, and SFFD did not agree to reverse the decision but did effectively allow for 4 additional feet in building height. While an increase, the team was not able to get the 8 feet hoped for which made reverting to wood framed construction infeasible in the context of keeping the same unit count. We did gain some room for tolerances which should better facilitate highly efficient Type I construction. The construction type remains the same ( $100 \%$ concrete). The Fire Department would not accept ladder access off of Rose Street and would only provide a measurement from the lowest point on Octavia Boulevard where they would have adequate ladder access.

## 7. Updated Sources and Uses Summary Sources and Uses Narrative

| Predevelopment MOHCD - ERAF and AHP | Amount |  | Terms |  | StatusFunded |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |

| Perm Sources |  |  |  |  |  |  |
| MOHCD | \$ | 17,508,995 | 0-3\% |  | Current Request |  |
| MOHCD NPLH | \$ | 4,780,239 |  |  |  |  |
| AHP | \$ | 945,000 |  |  |  |  |
| MHP | \$ | 5,425,104 |  |  |  |  |
| General Partner (Dev Fee) | \$ | 2,200,000 |  |  |  |  |
| Tax Credit Equity | \$ | 14,247,203 |  |  |  |  |
| State Tax Credit Equity | \$ | 4,886,297 |  |  |  |  |
| Deferred Fee | \$ | 322,465 |  |  |  |  |
| TOTAL | \$ | 50,315,303 |  |  |  |  |
| USES | Amount |  | Per Unit |  | Per Square Foot |  |
| Acquisition | \$ | 24,643 | \$ | 391 | \$ | 1 |
| Hard Costs | \$ | 30,019,197 | \$ | 476,495 | \$ | 630 |
| Hard Cost Contingency \& Escal. | \$ | 4,381,658 | \$ | 69,550 | \$ | 92 |
| Soft Costs | \$ | 11,167,339 | \$ | 177,259 | \$ | 234 |
| Developer Fee | \$ | 4,722,466 | \$ | 74,960 | \$ | 99 |
| TOTAL | \$ | 50,315,303 | \$ | 798,656 | \$ | 1,055 |

> Permanent Sources Evaluation Narrative: Proposed permanent financing sources include tax-exempt bonds and 4\% Low Income Housing Tax Credits, MHP, General Partner equity, Federal Home Loan Bank Affordable Housing Program funds, and MOHCD permanent financing in the amount of $\$ 22,289,234$, including $\$ 4.7$ million in State No Place Like Home (NPLH) funds for 15 TAY units. This total MOHCD contribution of $\$ 354 \mathrm{~K} /$ unit is higher than estimated at the Predevelopment stage, yet represents a different financing scenario with increased hard cost contingencies.
$\Rightarrow$ The tax credit priding is assumed at $\$ 1.01$ for the federal credit and $\$ 0.85$ for the state credit.

- AHP assumes a request of $\$ 15,000$ per unit; the sponsor has done a scoring analysis and doesn't think they'll be competitive with readiness points until 2021; therefore TNDC requests that MOHCD provide a bridge loan at closing that will be repaid upon funding of AHP, which will be requested in the final gap commitment request.
$>$ TNDC will submit an MHP application on March 2 for the project on 17 TAY units with incomes restricted at $25 \%$ TCAC ( $30 \%$ MOHCD AMI). All TAY units need to have an average $25 \%$ TCAC AMI ( $30 \%$ MOHCD AMI) to maximize the MHP tie breaker score.
$\Rightarrow$ A bond application is deemed competitive with a high self-score of $120 / 140$ points, only missing points for preservation, large family and QCT.
$>4 \%$ credits will include federal and state credits with an application in the January 2021 round.

The budget assumes a GP Contribution of $\$ 2.2$ million by maximizing eligible developer fee, and deferred developer fee of $\$ 322 \mathrm{~K}$.
> Permanent Uses Evaluation:

| GP Equity |  | \$2,200,000 |
| Deferred Developer Fee |  | \$322,466 |
|  |  |  |
| Total Developer Fee | 100\% | \$4,722,466 |

## 8. Operating Budget

The total operating budget has increased from $\$ 829,463$ ( $\$ 13,166$ PUPA at the Predevelopment Request to $\$ 259.154$ ( $\$ 15,225$ PUPA), assuming opening in 2022. Operating Cost increase are in the arcas of:

- Asset Management Fee is now rellected above the line
- Increased utilities
- Increased insurance
- Increased payroll and contracts
- Increased services for the non TAY units in the operating budget

While the operating costs appear high on a per unit basis, the high cost is related to 32 PSH units with full time desk clerk coverage within a small 63 unit building. Good comps for this project are John Burton Housing ( 50 units including 25 TAY units) and 1100 Ocean ( 71 units including 19 TAY units), which when escalated to 2022, are in a similar range of operating cost per unit:

- John Burton Operating Cost for CY 2018: $\$ \underline{52,657}$ or $\$ \underline{13,053}$ per unit. These costs presumably would increase around $3.5 \%$ per year to $\$ 749 \mathrm{~K}$ or around $\$ 15,000 /$ unit, a similar range. At John Burton Housing, no services are budgeted for the non-TAY units.
- 1100 Ocean Operating Cost for CY 2018: $\$ 977.000$ or $\$ 13,570$ per unit. These costs presumably would increase around $3.5 \%$ per year to $\$ 1,121,224$ or around $\$ 15,572$ / unit, a similar range. At 1100 Ocean, services for non-TAY units are included in the operating budget.
The staffing plan is lean (see table, below) and it will be revisited at final gap commitment.

| Type | FTE's | Budget | Notes |
| :---: | :---: | :---: | :---: |
| General Manager | 1 | 58,000 | 1 General Manager |
| Assistant Manager Salaries | 0 | 0 | No Assistant Manager |
|  |  |  |  |
| Desk Clerk Salaries (TNDC Employees) | 4.2 | 168,880 | 4.2 FTE Desk Clerks at 2020 min wage, plus requisite overtime and meal-break coverage |
| Rent Allowance | 0.0 | 0 | No MGR Unit |
| Night Manager Salary | 0.0 | 0 | None |
| Janitor \& Cleaning Payrol | 1.0 | 38,400 | 1 FTE Custodians at 2020 salaries (min wage) + requisite $\$ 2 \mathrm{k}$ for OT |
| Maintenance Payroll | 1.5 | 75,920 | 1 FTE Maint IIf and 0.5 Maint I at 2020 salaries. |

The project cashflows with the $30 \%$ LOSP and $80 \%$ MOHCD AMI units through Year 20, with a DSCR in Year I of 6.25 and in Year 20 of 3.03 . LOSP costs are currently budgeted at $\$ 14,350$ per unit per year.

## 9. Services Budget

The Support Serviced Plan for the MHP application is now being drafted. Larkin Street Youth Services has extensive experience providing services to TAY, including TAY with serious mental illness, with their MHSA TAY portfolio and programs. Larkin Street Youth Services' services contract will be funded by HSH. TNDC Tenant Services will provide support to the other households (adults or small families) with a part time service provider position paid from operations. TNDC and Larkin Street have a long collaboration in TAY housing including 864 Ellis ( 24 units, the very first affordable TAY project funded by the City) and Aarti ( 40 units). Completion of the services plan and budget is listed as a condition of ongoing disbursements during predevelopment.

## 10. Status of Predevelopment Loan Conditions

By December 1, 2019:
a) Begin community outreach in earnest. DONE
b) Determine feasibility of childcare center at ground floor. DONE for purposes of putting out an RFP given the high priority for Planning and childcare advocates of creating childcare in the Market Octavia area. If there are no feasible responses, TNDC will pivot to other community serving uses as outlined in the memo.
c) Submit application to Planning Department for SB35 and Site Permit review. DONE
d) Submittal of preliminary services plan and budget for HSH and MOHCD Review and Approval. IN PROCESS. TNDC is developing a supportive services plan in the MHP application format for review and approval by HSH , and has requested a supportive services commitment letter. The staffing plan is 2 FTE service providers, and will include NPLH services planning with higher need youth. TNDC proposes. 4 FTE for the $80 \%$ AMI households out of the operating budget.
e) TNDC will explore cost containment strategies for construction and present them at the various cost estimates (schematic, design development, construction) with narrative analysis of the pricing from the general contractor. IN PROCESS

By March 1, 2020 (Prior to Design Development Phase):
f Operating Budget Update. TNDC will refine the proposed operating budget and staffing plan, which informs the LOSP cost, to be reviewed by MOHCD and HSH. TNDC will consider the need for an assistant property manager. DONE
g) TNDC to analyze a higher AHP request amount to maximize FHLB source of funds. DONE

Former Conditions of Approval:
h) TNDC to implement cost containment strategies that limit the MOHCD subsidy to under $\$ 250 \mathrm{~K}$ per unit and limits the total development costs excluding land to under $\$ 675 \mathrm{~K}$ per unit. IN PROCESS. TNDC has pursued cost containment strategies as outlined in Section 7, and the proposed MOHCD subsidy is proposed at $\$ 353 \mathrm{~K} /$ unit, including NPLH funds, greater than $\$ 250 \mathrm{~K} /$ unit outlined in the goal of the condition. The TDC at $\$ 765 \mathrm{~K}$ / unit at also exceeds the goal of $\$ 675 \mathrm{~K} /$ unit. The financing structure has changed, and staff believe that this high cost is the result of the extremely small site and Type I construction. Ongoing value engineering efforts are in process with MOHCD overview.
i) TNDC to submit Request For Proposals (RFPs) for equity investors to MOHCD for review before they are finalized and released to investors. TO OCCUR IN FALL 2020
i) TNDC to submit raw financial data from developer or financial consultant to MOHCD prior to selection of equity investor. TO OCCUR IN FALL 2020
11. Staff Recommendation

1. Staff recommends approval of issuance of a MOHCD commitment letter in connection with the sponsor's MHP application.

## 12. New Loan Conditions

a. Continue hard cost reduction efforts and value engineering as design progresses.
b. Continue satisfaction of the loan conditions marked "IN PROCESS."

## LOAN COMMITTEE MODIFICATIONS

## LOAN COMMITTEE RECOMMENDATION

Approval indicates approval with modifications, when so determined by the Committec.
